

PARENTING TIME WORKSHEET
OAR 137-050-0730

Use this worksheet to help determine the average parenting time overnights when calculating child support for more than one child and there are different parenting time amounts for each child.

Enter the number of parenting time overnights (based on a two-year average) each party has with each child. A party can be a parent, a caretaker, or the state if the child is in state care.

For help calculating parenting time under a parenting plan, see the Parenting Plan Calculator at https://justice.oregon.gov/calculator/parenting_time

Include a Child Attending School age 18, living with a parent, and attending high school. Do not include any other Child Attending School.

		Overnights		
Children's names				
a	Total the number of overnights for each party			
b	Enter the total number of minor children			
c	Divide the total number of overnights for each party (line a) by the total number of children (line b). This is the party's average parenting time overnights for the minor children.
