

SASP TRAINING REQUIREMENT AND RESOURCES

SASP Training Requirement. The applicant must demonstrate that any staff person approached by a sexual assault survivor should be able to respond appropriately to assess need, provide crisis intervention and information and referral; as appropriate, staff may pass longer-term needs and services to the SASP-funded staff.

CVSD requires of a minimum of 30 hours of content-specific training for crisis line response and an additional 10 hours of training for in-person response for all grant-funded staff and volunteers serving survivors of domestic violence and sexual assault. Refer to Appendix A for a detailed outline of the training requirements. In addition, to qualify for SASP funding, each staff person wholly or partially funded by this grant **must attend at least 24 hours of advanced sexual assault training within the last 24 months**. All SASP-funded staff who does not meet the full 24-hour training requirement are required to complete the remaining training hours within the first 6 months of the grant period or, if newly hired, within 6 months of the hire date. Training on population- and culturally-specific services and practices may substitute for a portion of the required training hours.

Advanced sexual assault-specific training and other related resources may include:

- Training - Sexual Assault Training Institute (SATI) of the Attorney General's Sexual Assault Task Force (AGSATF);
- Training - Oregon Council Against Domestic and Sexual Violence (OCADSV);
