459A.010	<p>Statewide goals; opportunity to recycle program elements; recovery rates. (7) In calculating the recovery rates set forth in subsection (6) of this section, commercial, industrial and demolition scrap metal, vehicles, major equipment and home or industrial appliances that are handled or processed for use in manufacturing new products and that do not routinely enter the solid waste stream through land disposal facilities, transfer stations, recycling depots or on-route collection programs shall not be counted as material recovery or recycling. The department shall annually conduct an industry survey to determine the contribution of post-consumer residential scrap metal, including home appliances, to recycling and recovery levels in a manner which prevents double counting of material recovered. Information collected under the provisions of this section, as it relates specifically to private sector customer lists or specific amounts and types of materials collected or marketed, shall be maintained as confidential by the department and exempt from disclosure under ORS 192.410 to 192.505.
