Dear Sunshine Committee Members,

I'm a homecare worker in the Multnomah Co area. I've been doing this work for over twenty years now. I wanted to reach out regarding why for me, the protection of homecare workers personal data is so important.

I am a survivor of domestic violence by my ex-husband. I see myself as a survivor because I knew I needed to do whatever possible to keep my kids and myself safe. That included testifying against him and getting him sent to prison for what he did to us. So I don't take issues of personal safety and privacy lightly. They are a top priority for me because they have to be, not because I want them to be. I am a homecare worker because I love serving my consumers. I want to continue to do this work until I retire. But doing this work shouldn't come with the risk that my personal contact information can be easily released by the State.. I hope that you will really think about my story when looking at your recommendations.

Thank you for your time,
Joye Willman
