Subject: Thankful for Freedom Foundation

To whom it may concern,

Hi there my name is Heidi Morin and I am a care provider through Healthcare Commission in Washington County. I had opted out of being in SEIU union several years ago, but my request was never granted. I never did anything about it because I never knew my rights and didn't know what my options were before Freedom Foundation came along. Now I know what my options are as well as my rights. I personally think that Freedom Foundation should have names and addresses of others (care providers) so they may know their rights as well. Through these people I feel that I am not being taken advantage of or for granted by a larger corporation.

Thank you,
Heidi Morin
