12 **ASSURANCE OF VOLUNTARY COMPLIANCE**

13 1.

14 This Assurance of Voluntary Compliance (“Assurance”) is entered into by the Attorneys
15 General of Connecticut¹, Indiana, Kentucky, Michigan, New Jersey, New York, and Oregon
16 (collectively, the “Attorneys General”) and Residual Pumpkin Entity, LLC (formerly known as
17 CafePress LLC and, hereinafter, “CafePress”) to resolve the investigation by the Attorneys
18 General into the data security incident announced by CafePress on or about September 5, 2019,
19 which involved a breach of a CafePress database containing 22 million customer accounts
20 associated with its website cafepress.com (the “2019 Data Breach” or “Breach”).²

21 2.

22 In consideration of their mutual agreement to the terms of this Assurance, and such
23 other consideration as described herein, the sufficiency of which is hereby acknowledged, the

Department of Consumer Protection.

26 ² PlanetArt, LLC (“PlanetArt”) purchased substantially all of the assets of CafePress LLC over a year after the events
set forth in the Findings in Section I of this Assurance occurred. As part of the transaction, CafePress LLC changed
its name to Residual Pumpkin Entity, LLC. While its data security was not implicated, PlanetArt has agreed to
comply with certain of the provisions herein, as described below.

1 parties hereby agree as follows:

2 **FINDINGS³**

3 3.

4 On or before February 19, 2019, an unidentified attacker obtained customer information,
5 without authorization, that was contained in a CafePress database. The attacker obtained names,
6 email addresses, passwords, physical addresses, phone numbers, and in some cases, the last four
7 digits of credit card numbers and expiration dates as well as full Social Security or tax
8 identification numbers. In total, approximately 22 million accounts were affected, including
9 inactive and closed accounts.⁴ Of the affected accounts, 186,179 accounts involved Social
10 Security or tax identification numbers collected from sellers for tax purposes. At the time,
11 CafePress did not detect the breach.

12 4.

13 On March 13, 2019, a third-party security researcher informed CafePress of a SQL
14 injection vulnerability. The researcher demonstrated the vulnerability in real time using a custom
15 script and listed information he had extracted for 19 accounts in CafePress' customer database,
16 which included email addresses, passwords, and, for eight accounts, Social Security or tax
17 identification numbers.

18 5.

19 Upon learning of the SQL injection vulnerability, CafePress reviewed database and
20 webserver logs dating back two weeks and did not find evidence of a breach. Nonetheless, on
21 March 13, 2019, CafePress issued a patch to remediate the vulnerability, and, on March 14, 2019,
22 CafePress introduced parameterization to its SQL query code. On April 4, 2019, CafePress reset
23

24 ³ As noted in paragraph 38 of this Assurance, CafePress does not admit or concede any factual finding or
conclusion herein.

25 ⁴ At the time of the 2019 Data Breach, a seller account was considered "inactive" if the account holder had not logged
in to the account in the preceding twelve months. An account was considered "closed" if the account holder, whether
26 a seller or non-seller, had taken affirmative steps to delete the account by selecting "Close Account" under his or her
user settings. In either scenario, the account holder's username and password would be no longer valid on the
CafePress website.

ASSURANCE OF VOLUNTARY COMPLIANCE

1 the passwords of all CafePress customer accounts, requiring all users who accessed their account
2 on or after April 4, 2019 to set a new password upon login.

3 6.

4 Shortly after the password reset, a foreign jurisdiction contacted CafePress about an
5 investigation of one of its citizens who appeared to have accessed CafePress' network without
6 authorization and exfiltrated customer usernames and passwords. CafePress ran a sample of the
7 allegedly exfiltrated credentials against its customer database and determined that the credentials
8 did not permit access to any customer account.

9 7.

10 On July 13, 2019, CafePress customer information was posted for sale on WeLeakInfo, a
11 site where hackers sell information acquired from a breach. The FBI recently seized this site, and
12 it is no longer active.

13 8.

14 On August 4, 2019, the website Have I Been Pwned, a site that allows individuals to check
15 whether their personal information has been compromised, added the email addresses associated
16 with the accounts exposed in the 2019 Data Breach to its website and notified those users of the
17 Breach.

18 9.

19 At this point, close to six months after the intrusion, and close to five months after its first
20 indication of the vulnerability, CafePress conducted a full investigation into whether its user
21 database had been breached. During this investigation, CafePress determined that its users'
22 personal information was available for sale on the dark web.

23 10.

24 Starting on September 4, 2019, CafePress notified by letter affected customers whose
25 Social Security or tax identification numbers had been exposed in the Breach. Starting on
26 September 5, 2019, on a rolling basis, CafePress notified by email customers whose personal

ASSURANCE OF VOLUNTARY COMPLIANCE

1 information other than Social Security or tax identification numbers had been exposed.
2 Additionally, from September 5, 2019 to October 12, 2019, CafePress posted a notice of the
3 Breach via a banner at the top of its homepage.

4 11.

5 CafePress provided two years of credit monitoring and theft resolution services at no
6 charge to those whose Social Security and/or tax identification numbers were potentially affected
7 by the incident via Experian's IdentityWorks product. That product includes up to \$1 million in
8 identity theft insurance and is underwritten by insurance company subsidiaries or affiliates of
9 AIG.

10 12.

11 In a transaction that closed on August 31, 2020, PlanetArt purchased substantially all of
12 the assets of CafePress. While the purchase occurred over a year after the events set forth in the
13 Findings in Section I of this Assurance occurred, and its data security was not implicated,
14 PlanetArt has agreed to comply with certain of the provisions herein, as described below.

21 ("Information Security Program") that is reasonably designed and enabled to protect the security,
22 integrity, and confidentiality of Personal Information that CafePress collects, stores, transmits,
23 and/or maintains. The Information Security Program shall, at a minimum, include the information
24 security requirements set forth in this Assurance.

25 ///

26 ///

ASSURANCE OF VOLUNTARY COMPLIANCE

18.

The Information Security Program shall comply with any applicable requirements under the Consumer Protection Acts, the Personal Information Protection Acts, and the Security Breach Notification Acts and shall contain reasonable administrative, technical, and physical safeguards appropriate to: (i) the size and complexity of CafePress' operations; (ii) the nature and scope of CafePress' activities; and (iii) the sensitivity of the Personal Information that CafePress collects, stores, transmits, and/or maintains.

19.

CafePress shall review the Information Security Program not less than annually and make any updates necessary to ensure the reasonable protection of the security, integrity, and confidentiality of Personal Information that CafePress collects, stores, transmits, and/or maintains.

20.

CafePress shall appoint a qualified employee responsible for implementing, maintaining, and monitoring the Information Security Program with the credentials, background, and expertise in information security appropriate to the level, size, and complexity of her/his role in implementing, maintaining, and monitoring the Information Security Program. The appointed individual shall report regularly to the Chief Executive Officer concerning CafePress' security posture, the security risks faced by CafePress, and the Information Security Program.

21.

CafePress shall provide notice of the requirements of this Assurance to its management-level employees responsible for implementing, maintaining, or monitoring the Information Security Program, and shall implement training on the requirements of the Personal Information Protection Acts and the Security Breach Notification Acts. CafePress shall provide the training required under this paragraph to such employees within thirty (30) days of the Effective Date of

ASSURANCE OF VOLUNTARY COMPLIANCE

1 this Assurance or prior to their responsibilities for implementing, maintaining, or monitoring the
2 Information Security Program.

3 **INCIDENT RESPONSE AND DATA BREACH NOTIFICATION PLAN**

4 22.

5 Within sixty (60) days of the Effective Date of this Assurance, CafePress shall develop,
6 implement, and maintain a written incident response and data breach notification plan. The plan
7 shall identify and describe the following phases: (i) Preparation; (ii) Detection and Analysis; (iii)
8 Containment; (iv) Eradication; and (v) Recovery.

9 23.

10 The plan shall require that CafePress investigate data security incidents that are reasonably
11 suspected to be a Security Event. CafePress shall maintain documentation sufficient to show the
12 investigative and responsive actions taken in connection with a Security Event and the
13 determination as to whether notification is required. CafePress shall also assess whether there are
14 reasonably feasible training or technical measures, in addition to those already in place, that would
15 materially decrease the risk of the same type of Security Event reoccurring.

16 24.

17 If CafePress determines that a Security Event does not require reporting under the Data
18 Breach Notification Acts, CafePress shall create a report that includes a description of the Security
19 Event and CafePress' response to that Security Event ("Security Event Report"). CafePress shall
20 make the Security Event Report available to the Attorneys General upon request.

21 **PERSONAL INFORMATION SAFEGUARDS AND CONTROLS**

22 25.

23 Encryption: CafePress shall encrypt Social Security numbers that it collects, stores,
24 transmits and/or maintains, whether stored within the CafePress computer network, or transmitted
25 electronically within or outside the network, using a reasonable encryption algorithm.

26 ///

ASSURANCE OF VOLUNTARY COMPLIANCE

1 26.

2 Segmentation: CafePress shall segment Social Security numbers from any internet-facing
3 application or portal, using a system designed to make Social Security numbers inaccessible from
4 such internet-facing application or portal. If a Social Security number must be accessible from
5 an internet-facing application or portal for a legitimate and necessary business function, CafePress
6 shall employ tokenization in a reasonable manner to minimize any associated risk.

7 27.

8 Penetration Testing: CafePress shall develop, implement, and maintain a penetration-
9 testing program designed to identify, assess, and remediate security vulnerabilities within the
10 CafePress computer network. This program shall include regular penetration testing, risk-based
11 vulnerability ratings, and vulnerability remediation practices that are consistent with industry
12 standards.

13 28.

14 Risk Assessment: CafePress shall develop, implement, and maintain, in conjunction with
15 its penetration-testing program, a corresponding risk-assessment program designed to identify
16 and assess quantitative risks to the CafePress computer network.

17 29.

18 Password Management: CafePress shall implement and maintain reasonable password
19 policies and procedures that requires the use of complex passwords and other measures that guard
20 against unauthorized access, including, without limitation, hashing stored passwords using a
21 reasonable hashing algorithm and salt.

22 30.

23 Logging and Monitoring: CafePress shall maintain an appropriate system designed to
24 collect and monitor network activity, such as through the use of security and event management
25 tools, as well as appropriate policies and procedures designed to properly configure such tools to

31.

Personal Information Deletion: CafePress shall permanently delete Customer Personal Information when there is no business purpose to retain it.

32.

Account closure notification: If a Customer elects to close his or her account and it does not result in the deletion by CafePress of the customer's Personal Information, CafePress shall prominently disclose to the Customer that CafePress will continue to retain the Customer's Personal Information after account closure and provide functionality for the Customer to delete the account and all of the Customer's Personal Information. CafePress will disclose any exceptions to this deletion policy, and will identify the categories of information that will be retained and the retention period.

INFORMATION SECURITY PROGRAM ASSESSMENTS

33.

Within one (1) year of the Effective Date and biennially for five (5) years thereafter, CafePress shall obtain assessments of its Information Security Program. The assessments shall be performed by a qualified and independent third party that has at least five (5) years of experience evaluating the effectiveness of computer systems or information system security. The assessments shall set forth the administrative, technical, and physical safeguards maintained by CafePress and explain whether the safeguards are appropriate to CafePress' size and complexity, the nature and scope of CafePress' activities, and the sensitivity of Personal Information that CafePress collects, stores, transmits, and/or maintains, thereby meeting the requirements of the Information Security Program.

3 parties in good faith and for settlement purposes only, and no evidence of negotiations or
4 communications underlying this Assurance shall be offered or received in evidence in any action
5 or proceeding for any purpose. Neither is it the intent of the parties that this Assurance nor any
6 public discussion, statement, or comment with respect to this Assurance by the parties be offered
7 or received in evidence in any action or proceeding for any purpose other than in an action or

6 or a sanction by the Attorneys General of CafePress' business practices, nor shall CafePress
7 represent that this Assurance constitutes an approval or sanction of its business practices. The
8 parties further understand and agree that any failure by the Attorneys General to take any action

10 approval or sanction of any representations, acts, or practices indicated by such information, nor
11 shall it preclude action thereon at a later date.

12 44.

13 Nothing in this Assurance shall be construed as relieving CafePress of the obligation to
14 comply with all applicable state and federal laws, regulations, and rules, nor shall any of the
15 provisions of this Assurance be deemed to be permission to engage in any acts or practices
16 prohibited by such laws, regulations, and rules. As to each individual signatory State, this
17 Assurance shall be governed by the laws of that State without regard to any conflict of laws
18 principles. CafePress shall deliver a copy of this Assurance to, or otherwise fully apprise, each

24 court, CafePress consents to the filing of this Assurance and to its approval by a court and
25 authorizes the Attorneys General in such states to represent that CafePress does not object to the
26 request that the court approve the Assurance. CafePress further consents to be subject to the

49.

This Assurance shall not be construed to waive any claims of sovereign immunity the States may have in any action or proceeding.
