

# Oregon Batterer Intervention Providers Directory

## 2021

### Acknowledgements

We would like to express our sincere thanks to the batterer intervention providers, community corrections officers, and District Attorneys of Oregon who were instrumental in providing information about current batterer intervention services in Oregon.

### Note

This directory has been compiled based on a systematic effort, conducted in 2020, to identify all batterer intervention programs currently offering services in Oregon. Updates to the directory have been made as per request or as the authors became aware of changes.

This version of the directory includes updates of this nature made through June 1, 2020.

## Background

This is the 7th edition of this statewide directory of batterer intervention programs. The purpose of this directory is to provide a comprehensive list of batterer intervention providers and programs in the state of Oregon. The first edition was printed in 2001, when a team of students working with Eric Mankowski, PhD at Portland State University produced this directory in collaboration with the Oregon Attorney General's BIP Advisory Committee. Batterer intervention providers, community corrections officers, and District Attorneys in each county throughout Oregon were contacted to find out who provided intervention for abusive men. This information was used to generate the initial directory. Subsequent editions were printed in 2004, 2008, 2011, 2013 and 2016. Each program that is listed in the current edition was contacted in 2020 to provide updated information, and newly established programs have also been included.

The current directory is organized by the counties in which programs have physical addresses, regardless of the counties in which their participants may reside. Thus, several programs are listed in multiple sections of the directory, corresponding to the multiple counties in which they have locations. Each entry in the directory includes the program address, which is the programs' physical address, as well as a mailing address, where correspondence should be directed. Programs' telephone and fax numbers are provided, as well as the names of a contact-person or people and their email addresses. Where applicable, programs' websites have also been included. Programs were also asked whether they offer batterer intervention groups for distinct populations. This information is included as programs' "specialty groups," and reflects the language that programs used to describe these groups.

All of the information in the directory is based only on the agencies' self-reports. **Listing in this directory in no way implies endorsement of the program by any organization, including the Attorney General.**

We hope that the directory will increase knowledge of existing programs across the state; encourage consultation and interaction among batterer intervention providers; and be a resource to judges, probation officers, domestic violence shelters, and others working as part of a coordinated community response to domestic violence. If you would like a copy of the directory or know of additional providers who should be listed in future editions, contact Eric Mankowski, PhD., Portland State University, Department of Psychology, P.O. Box 751, Portland, OR 97207; telephone: 503-725-3901; email address: [mankowskie@pdx.edu](mailto:mankowskie@pdx.edu).

An electronic version of this directory is available online on the Crime Victims' Services Division website: [http://www.doj.state.or.us/victims/bip\\_advisory\\_committee.shtml](http://www.doj.state.or.us/victims/bip_advisory_committee.shtml).
